Malie Kapelianis

Junior Front-End Web Developer

I am a passionate junior front-end web developer with a strong foundation in HTML,CSS, and JavaScript. Eager to leverage my coding skills and creativity to build user-friendly and visually appealing websites. Currently honing my skills through self-directed learning and hands-on projects. Actively seeking opportunities to collaborate, learn, and contribute to innovative web development projects.

SKILLS

- **Adaptability:** Willingness to learn and adapt to new technologies and methodologies.

- **Attention to Detail:** Keen attention to detail to ensure code quality and accuracy.

- **Coding Fundamentals:** Solid understanding of programming fundamentals and best practices. HTML, CSS and JS.

- **Command Line:** Basic command-line proficiency for efficient development workflows.

- **Communication Skills:** Strong verbal and written communication skills for effective collaboration.

- **Computing:** Microsoft Office programs. Excel, PowerPoint, Word and Microsoft 365.

- **Creativity:** A creative mindset for designing visually appealing and engaging user interfaces. Including programs in the Adobe Suite. (eg. Photoshop, Illustrator, PremierPro)

- **CSS3:** Skilled in styling and layout techniques, including responsive design for various devices. Familiar with libraries such as React, Bootstrap, SASS and jQuery.

- **Data handling & analysis:** Moderate training. Relevant programs Repsly, Power BI.

- **Debugging**: Competent in debugging techniques to identify and fix code issues.

- **Financial Programs:** Moderate training. Relevant program Sage Payroll.

- **HTML5:** Proficient in creating semantically structured and accessible web pages.

- **JavaScript (ES6+):** Familiar with modern JavaScript and its functionalities, including DOM manipulation and RegEx, Redux.js, D3.js and React.js
.

- **Languages:** Fluent in Afrikaans and English. Beginner in French.

- **Problem-Solving:** Strong analytical and problem-solving skills to troubleshoot issues and optimize code.

- **Responsive Web Design:** Capable of designing and implementing websites that adapt to different screen sizes.

- **Sales:** Experience in retail and wholesale. Working with suppliers, buyers, and clients. Logistics and store layouts for best sales practices. Order capturing between store buyer and product supplier.

- **Self-Learning:** Proactive in self-directed learning and staying updated with industry trends.

- **Time Management:** Ability to manage time effectively to meet project deadlines and milestones.

- **Team Collaboration:** Ability to work collaboratively in a team environment.

- **Web Development Tools:** Familiarity with tools like Visual Studio Code, CodePen, Git, GitHub and Netlify.

EDUCATION

Data Visualization Certification
freeCodeCamp
In Progress

- Certificate awarded for completing Data Visualization curriculum building charts, graphs, and maps to present different types of data with D3.js library. Also using JSON and working with data online using APIs.

Front End Development Libraries Certification
freeCodeCamp
In Progress

- Certificate awarded for completing Front End Development Libraries curriculum that handled how to style sites quickly with Bootstrap. Add logic to CSS with Sass and create powerful Ingle Page Applications (SPAs) with React and Redux.

SheCodes - Web Development Certificate
SheCodes
April 2024

- Certificate awarded for completing Web Development curriculum that handled advanced page animation techniques with ES6 functions. Integration of APIs to fetch real data and use of code management tools.

- Mathematics

WORK EXPERIENCE

Vape Junction Pretoria, Pretoria — *Salesperson*

January 2024 - Present

- As a salesperson in a vape shop, I specialize in guiding customers through the world of vaping. From starter kits to advanced mods, with a keen understanding of our products' features, flavors, and functionalities, I prioritize customer satisfaction by offering personalized recommendations and creating a welcoming atmosphere for all.

Infinity Times Infinity Productions, Pretoria — *Videographer and Editor*

October 2023 - December 2023

- Wedding videographer running 3+ multi-camera (audio and visual) set ups for ceremonies and receptions.
- Wedding video and engagement shoot editor. Delivered +-7min Highlight video and +-3h RAW Multi Camera Film of entire day per wedding.

PUC Marketing, Pretoria — *Office Administration*

January 2021 - August 2023

- General office administration.
- Set up and handling of data systems and documents. Capturing and analysis of mentioned data to present to management any growth, decline or areas of improvement to mention a few. Worked in and handled the data of a team of 5 National Managers, 5 Regional Managers, 22 Representatives and over 200 Merchandisers.
- Worked as personal assistant to the Director. Handling email correspondence, booking travel arrangements (including internationally), scheduling meetings, and transcribing meeting minutes.
- Worked as assistant to the Financial Manager with payroll and recons on time sheets.

Visual Impact, Johannesburg — *Rentals Internship*

January 2020 - February 2020

- Worked on pulling film equipment from the gear house and prepping for pick up according to rental documents completed by clients.
- Completed competency tests with clients upon pick up of gear, to ensure they understood how to use it.
- Tasked with assembling, cleaning and tracking any damage to returned gear. Fixing damaged gear or sending it to the appropriate department for fixing. Before storing in the gear house.

ACHIEVEMENTS

Afrikaans Expo Category Winner — *Media*

2012

- Awarded Honour Colours for being the Afrikaans Expo Category Winner: Media.

Colours — *Visual Arts*

2014 & 2015

- Awarded Colours for Visual Arts in both years.

2015

- Awarded A & A+ certificates for artworks submitted to Pretoria Eisteddfod.

PROJECT HIGHLIGHTS

Responsive Portfolio Website — *HTML and CSS*

January 2024

- Designed and implemented a personal portfolio showcasing my coding projects and skills.
- **Personal Portfolio Website**

Interactive Dragon Repeller RGB Game: —

HTML, CSS, and JavaScript

February 2024

- Embark on an epic adventure in the "Dragon Repeller Game", a thrilling web-based experience built with HTML, CSS, and JS! But beware – the dragon won't go down without a fight! Dodge their fiery breath, time your attacks, and strategically use power-ups to emerge victorious. The game features an engaging storyline, dynamic animations, and a responsive user interface crafted with HTML and CSS. The real magic happens under the hood with JavaScript, where you'll find a combination of event handling, game logic, and animations working seamlessly to deliver an immersive gaming experience. Tailored to meet the FreeCodeCamp certification requirements for a dragon repeller game.
- **Dragon Repeller RPG**

Interactive Weather App: — *HTML, CSS, and JavaScript*

March 2024

- Developed a dynamic weather application using JavaScript to fetch realtime API data and display current weather as well as forecasted weather for searched city.
- 🌤️ **My Weather App**
